Academic Courses: Foundations

English | Math | Science Courses

Suitable for: Year 2-11 | Grade 1-10
Course length: 15 hours

One-on-one: \$13,500
Format: in person or online

These subject-specific courses support primary and secondary school students on English, math and science. Classes are personalized and will follow your child's school curriculum. Our tutors will help students stay on top of the concepts they learn in school, excel in assignments, and build strong foundations that are essential for academic success. Additional hours are available for purchase, if needed.

Reading & Writing Course

Suitable for: Year 7-10 | Grade 6-9
Course Length: 15 hours

One-on-one: \$13,500
Format: in person or online

This course will take on a personalized approach to strengthen students' reading comprehension and writing to build a better foundation for classroom and exam success. It will cover genres commonly studied at school, including prose, poetry, drama and literary nonfiction. Students will learn to analyze, organize and edit texts and refine their language usage. It will also cover the basics of drafting a literary analysis essay, including proper citation usage.

Vocabulary Booster Course

Suitable for: Year 5-9 | Grade 4-8
Course Length: 15 hours

One-on-one: \$13,500
Format: in person or online

This course is designed to give students a big boost to their vocabulary. It will cover grade-appropriate vocabulary and help students understand how words are formed. Through fun and interactive explanations and exercises, students will learn about roots, prefixes, suffixes, and analogies which will equip them for success in academic settings and standardized tests such as the MAP, SCAT, ISEE and SSAT. Students will also learn the skills needed to continue strengthening their vocabulary on their own well beyond this course.

Math Booster Course (Middle School)

Suitable for: Year 6-9 | Grade 5-8
Course length: 15 hours

One-on-one: \$13,500
Format: in person or online

In this math booster course, students will review fundamental concepts to prepare for high school math courses and standardized exams. This course is ideal for students who need to fill gaps in their middle school math education or are seeking to get a head start on high school math. Lessons will be tailored to each student's particular needs. The course is example and practice-based, with a focus on commonly-missed topics.
